Skilled front-end engineer specializing in Vue.js, JavaScript, HTML and CSS. Experienced in Vue 2 & 3, Vuex/Pinia, Vue Router, and UI frameworks like Tailwind CSS and Bootstrap. Proficient in integrating RESTful APIs, optimizing performance, and building scalable, responsive applications. Passionate about clean code, UI/UX improvements, and staying update with Front-End trends.

PROFESSIONAL EXPERIENCE

Elite Software and Data Security Inc.   **January 2024 - Present**

Team Lead (Senior Front-End Developer II)

Summary:
- Led a cross-functional team in developing scalable Vue.js web applications with high performance.
- Designed modular, reusable components and optimized UI/UX using Tailwind CSS and PrimeVue.
- Integrated RESTful APIs, ensuring seamless data handling with backend teams.
- Implemented Agile methodologies, using ClickUp for task management and progress tracking.
- Researched and adopted new Vue.js features to enhance development efficiency.

Key Achievements:
- Reduced bug resolution time through structured testing and debugging strategies.
- Increased development efficiency and turnover through reusable components and better documentation.

Elite Software and Data Security Inc.   **October 2022 - December 2023**

Senior Front-End Developer I

Summary:
- Spearheaded building scalable applications and designing user interfaces from scratch, ensuring responsive and accessible design using Bootstrap.
- Integrated RESTful APIs and ensure smooth data flow between front-end and back-end systems.
- Conducted code reviews, mentored junior developers, and enforced front-end best practices.

Key Achievements:
- Forefront of project continuity and enhanced maintainability and performance.
- Improve development speed through better component reuse and process improvements.

Elite Software and Data Security Inc.   **December 2019 - September 2022**

Front-End Developer

Summary:
- Developed a reusable front-end app template using Vue.js, streamlining development for 5+ projects.
- Designed and built landing pages for 5 different clients, ensuring responsiveness and cross-browser compatibility using Bootstrap.
- Created a WordPress website for a client, customizing themes and optimizing performance.
- Worked in an Agile environment, contributing to sprints, debugging, and feature development.

Key Achievements:
- Reduces project setup time with a scalable Vue.js template.
- Delivered 5 client landing pages within tight deadlines, ensuring high-quality UI/UX.
- Successfully built and deployed a custom WordPress site, meeting client-specific requirements.

Personiv   **June 2018 - November 2019**

Web Designer

Summary:
- Designed and built responsive websites using Duda, customizing templates to match client branding and goals.
- Optimized UI/UX and performance, ensuring fast load times, accessibility, and SEO-friendly structures while integrating third-party tools for enhanced functionality.
- Managed multiple projects, collaborating with clients, gathering requirements, and delivering high-quality designs on time.

Key Achievements:
- Successfully launched different client websites, improving online presence and engagement.
- Reduced website load time that enhances user retention
- Increased client satisfaction through custom designs and seamless functionality.

EDUCATION

Polytechnic University of the Philippines - Parañaque Campus   **May 2018**
Bachelor of Science in Information Technology
